Do You Know About????

AuditMyBooks

The Association of Certified Fraud Examiners (ACFE) estimates that fraud cost U.S. businesses nearly \$1 trillion last year, and that 40% of the cases investigated occurred at SMB's (small and medium businesses) with less than 100 employees. Businesses of this size suffer the highest median loss at nearly \$190,000 per occurrence and 25% of the cases exceed \$1 million in losses. When fraud is committed, it takes an average of 18 months or more to discover.

Customers are sharing great stories:

Do you own a small business?

"We're great at creative design, not creative accounting. AuditMyBooks helps us to automatically double check our books weekly for accounting mistakes before the errors become bigger problems."

Tim Brammer, Partner, The Foundry Agency

Are you a CPA, CFE or ProAdvisor?

"Although most of my clients cannot justify the cost of an audit, they still need in depth analysis for protection from errors and fraud. We're building a new practice area that includes AuditMyBooks plus recurring professional services at a price point that makes sense for our clients."
